### 9 FTE and \$549,807 Legal Affairs Revolving TF Economic Crimes (Consumer Protection) Office of the Attorney General

- financial exploitation under Chapters 501 and 895, Florida Statutes particularly its large and growing elderly population from fraud and other The Economic Crimes Division is charged with protecting Florida's citizens,
- enforcement priorities, and a variety of other factors selected based on the number of consumers affected, the AG's whistle blowers, the AG's newly installed Fraud Hot Line, etc., and are Cases evolve through consumer complaints, NAAG notices, the media,
- Due to these referral sources, cases run the gamut: Internet; Home Repair; Leasing; Charitable Solicitation; and Warranty Sales. Telemarketing; Direct Mail Sweepstakes; Moving Companies; Auto Sales &
- bureaus throughout the state at a cost of approximately \$6.5 million. The Division currently has 60 employees (including 26 lawyers) in five
- cases involving recoveries of over \$175 million, \$120 million of which were In the last three years, the Division resolved, or participated in resolving returned directly to consumers - 400 cases now active
- and growing elderly population and continue participation in large multi-state investigations that produce financial return to Florida consumers Current staffing levels are inadequate to effectively protect Florida's large

### Healthcare/Medicaid Fraud PANE Office of the Attorney General \$28,039 Grants and Donations TF

- and exploitation in Florida health care facilities to aggressively pursue cases of suspected patient abuse, neglect Attorney General has directed the Healthcare/Medicaid Fraud Unit
- identified as the PANE (Patient Abuse, Neglect and Exploitation) Project. Establishment of pilot initiative in Miami-Dade County and initially be
- DCF Abuse Hot Line received over 10,000 reports of abuse, neglect or exploitation in health care facilities in 2001-2002
- supervisors to be on-call around the clock for seven-day weeks and holidays in order to respond to complaints of patient abuse, neglect The PANE Project will require teams of investigators and and exploitation in health care facilities

## Office of the Attorney General Crimestoppers Restoration

\$1,401,200 General Revenue, (\$1,401,200) Crime Stoppers TF

- statewide fighting activities in counties where these programs are established The Florida Crime Stoppers Act was passed by the Legislature in 1998 and supports Crime Stoppers Programs and their crime-
- with crime stoppers trust funds. was removed from the Department's salary budget and replaced During the 2001 Special Session, \$1.1 million of general revenue
- Partial restoration of \$550,000 occurred in FY 02-03, however, an additional fund shift was taken in the current year for a total of \$1.4
- Up until the current year, these shifts were taken from unrequested and residual funds. Continuation of this policy into FY 04-05 will result in a reduced program level for Crimestopper organizations
- The Department is seeking a restoration of these funds to the Crime Stoppers I rust Fund.

### 1 FTE and \$71,081 General Revenue Office of the Attorney General Inspector General

- and other abuses in state government." supervise, and coordinate investigations designed to detect, deter, prevent and eradicate fraud, waste, mismanagement, misconduct Pursuant to Section 20.055(6), Florida Statutes, the Inspector General is charged with the responsibility to "...initiate, conduct,
- The Office of Inspector General (OIG) has a total staff of only 6 FTE compared on a per capita basis with other agencies. resulting in its investigative arm being seriously understaffed when
- As evidenced by the numerous complaints received and subsequent sufficiently address the continuous demand for the OIG's investigations conducted recently by the OIG, the Inspector General investigative services has determined that current resources are not adequate to
- The OIG is requesting 1 FTE and \$71,081 in general revenue to efficiently ensure investigative services are performed effectively and

## Department-wide FTE/Budget Realignment Office of the Attorney General

- budget entities or services Technical issue that realigns budget and positions within existing
- Factors contributing to the realignment problem:
- Governor and legislative break-out of Attorney General Services aligned; from 3 to 7 in the 2000-2001 budget year was improperly
- Creation and augmentation of Information Technology section from existing resources;
- Creation of Fraud Hot Line from existing resources; and
- Creation of the Office of Inspector General from existing resources
- Realignment will avoid multiple budget amendments during the year to realign spending.
- This issue nets to -0- with no increase in general revenue.

## Office of Statewide Prosecution **Identity Theft**

## 3 FTE and \$246,002 General Revenue

- The 16th Statewide Grand Jury, which falls under the jurisdiction of the Office of Statewide Prosecution, focused on identity theft
- highest number of identity theft related crimes in the country The Federal Trade Commission reports that Florida has the fourth (10,898).
- defendants convicted of identity theft crimes. As of 10/3/03 the OSWP has filed 200 identity theft cases with 151
- Attorney General's Fraud Hotline has generated over 1200 identity theft complaints in 10 months
- the nation ( 3 year mandatory minimum @ \$5,000 stolen). with one of the strongest and most punitive identity theft statu tes in Florida Legislature empowered law enforcement and prosecutors Due to enhanced sentencing provisions passed last year, the
- Additional positions will handle anticipated growth in Identity Theft cases due to enhanced sentencing provisions

### Salaries/Benefits - \$65,000 General Revenue Office of Statewide Prosecution Lapse Factor Reduction

- For FY 04-05, the Office of Statewide Prosecution's (OSWP) salary appropriation is lapsed at 3.37% or approximately \$162,159.
- during the year to generate these dollars This built-in budget assumption means that positions must be vacant
- In a 66 FTE unit, it is an unrealistic assumption that this level of turnover will occur naturally.
- The OSWP hires career prosecutors and does not generally constraints presently maintain position vacancies to live within budget experience an attorney turnover of this magnitude and must
- to a more manageable 2%. Increased general revenue appropriation will reduce the lapse factor

## Office of Statewide Prosecution Gun Control/Drugs

\$83,819 General Revenue, (\$83,819) Grants and Donations TF

- federal Community Gun Violence Prosecution Grant through the In January 2002, the Office of Statewide Prosecution was awarded a Department of Justice
- This is a three year grant that provides \$40,000 a year in funding for one Statewide Prosecutor
- gun control/drug cases This grant ends in 2004-2005 but carries a current caseload of 22
- In order to continue the efforts initiated by this grant, and to America, the OSWP requests a conversion to general revenue contribute to the nationwide commitment to reduce gun crime in

### 2004/05 LEGISLATIVE BUDGET REQUEST FLORIDA PAROLE COMMISSION AND LONG RANGE PLAN

### AGENCY MISSION:

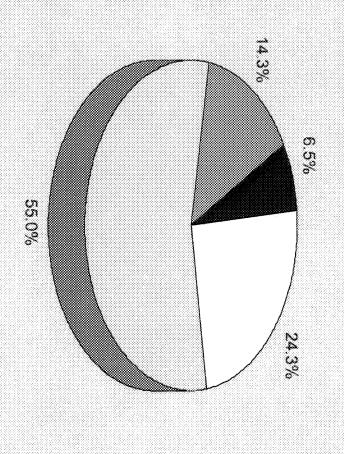

administers the clemency process for the Executive Clemency eligible criminal offenders. Additionally, the Commission release, control release and addiction recovery supervision to all administering parole, conditional release, conditional medical Board pursuant to the Rules of Executive Clemency. The Florida Parole Commission protects the public by

### GOALS

- Ensure informed decision making to both the Clemency Board (Cabinet) and the Parole Commission
- Investigate 50,970 Restoration of Civil Rights cases without a hearing and conduct 1,048 full clemency investigations.
- Timely decisions
- 99.9% of revocation hearings completed within 90 days.
- Select individuals appropriate for parole.

## Florida Parole Commission Program: Post-Incarceration Enforcement and Victims' Rights

- Parole Determinations
- Conditional Release
- ☐ Offender Revocations
- ☐ Clemency Services (Clem. Adm and Exec Clem.)

### 2004/05 LEGISLATIVE BUDGET REQUEST FLORIDA PAROLE COMMISSION AND LONG RANGE PLAN

### Performance Based Compensation Plan \$153,096 (\$105,877 General Revenue; \$47,219 Trust Fund)

FDLE's performance evaluation system requires each member to have a performance contract that outlines expectations for the fiscal year. Performance contracts contain clear and quantifiable individual expectations and are directly linked to the achievement of agency performance measures.

FDLE has received funding for the last 5 fiscal years to implement the Performance Based Compensation Plan. The Plan provides a 2% permanent salary increase to those members who have been with FDLE 2 years or longer, have no disciplinary actions, and who *exceed* the performance expectations outlined in their performance contracts.

### What Service is the State of Florida Buying?

- High performance goals and work standards for FDLE members
- Incentives to assist in exceeding individual and department performance expectations
- Direct accountability for the achievement of performance measures
- Improved productivity across the agency

### Cost

FDLE is requesting \$153,096 for one month of funding. Performance pay increases will be awarded in June 2005 based on a full fiscal year of performance. The annualized cost for the Plan is \$1,844,810.

### Measurable Results

Performance pay has resulted in increased productivity across the department for the last four years. Examples include:

Performance Measure	Year 1 (FY 99-00)	Year 2 (FY 00-01)	Year 3 (FY 01-02)	Year 4 (FY 02-03)	Estimated Savings to the State
# of Lab Service Requests Completed	66,063	71,387	73,539	76,367	Savings of \$1,692,985 (35 Scientists)
# DNA Samples Added to DNA Database	9,863	22,825	41,960	44,068	346% Increase in Productivity
Average # Days to Complete Lab Service Requests Statewide	Not reported	63	44	41	35% Improvement in Turnaround time
# of Criminal History Record Checks Conducted	1,622,207	1,649,800	1,812,121	2,083,902	Savings of \$1,074,295 (37 Sr. Criminal Justice Information Techs)
# of Program and Financial Audits Performed	2,068	2,231	2,264	2,448	Savings of \$86,158 (2 Research & Training Specialists)

### Sworn Structured Retention and Recruitment Plan \$246,560 General Revenue

The Florida Department of Law Enforcement is requesting \$246,520 in recurring General Revenue to continue a Sworn Structured Retention and Recruitment Plan provided by the

2003 Legislature. The second year of funding is for those members who have reached a new category of years of service. The Plan provides a permanent salary increase to the base rate of pay for Special Agents, Special Agent Supervisors, and Inspectors who have achieved performance contract expectations, have no disciplinary actions, and have not been placed on a performance improvement plan for the last 12 months. Members on DROP are not eligible.

FDLE agents investigate complex cases in the areas of domestic security, drugs, violent crime, economic crime, and public integrity. It is critical for FDLE to retain its most experienced sworn personnel to serve as case agents as well as mentors and trainers to newly recruited agents.

### What Service is the State of Florida Buying?

- Enhanced ability to retain Special Agents and to recruit other qualified and experienced investigators from local agencies
- A Sworn Structured Retention and Recruitment Plan that provides salary increases for Special Agents, Inspectors, and Special Agent Supervisors:

Years of Service	Proposed Increase	Number	Increase	Benefits	Total	Cost for Jan. 2005 payout
3.0 - 5.9	\$3,000	28	\$ 84,000	\$28,560	\$112,560	\$56,280
6.0 - 9.9	\$5,000	29	\$145,000	\$49,300	\$194,300	\$97,150
10.0 - 15.9	\$4,000	19	\$ 76,000	\$25,840	\$101,840	\$50,920
16.0 & up	\$3,000	21	\$ 63,000	\$21,420	\$ 84,420	\$42,210
	and a second				TOTAL	\$246,560

### Cost

FDLE is requesting **\$246,560 in recurring General Revenue** for six months of funding, with a payout in January 2005. **The annualized cost for the Plan is \$246,560**.

- Number of criminal investigations commenced (Standard: 790)
- Number of short-term investigative assists worked (Standard: 3,571)
- Number of criminal investigations closed (Standard: 1,240)

### Integrated Criminal History System \$7.501,242 (\$2,876,000 General Revenue; \$4,625,242 Trust Funds)

FDLE is requesting \$7,501,242 to continue the development of the Integrated Criminal History System (ICHS). The 2003 Legislature appropriated \$2.9 million to implement Phase 1 (System Design) and Phase 2 (working model). After completing a competitive procurement process, FDLE signed a contract, in April 2003, with Science Applications International Corporation (SAIC) to design and build ICHS.

To aid in funding the new system, the 2003 Legislature increased the standard fee for criminal history background checks from \$15 to \$23 per request, with a smaller increase for certain government agencies. The increase provided by the revised criminal history fees is anticipated to generate \$10 million in revenues this first year.

### What Service is the State of Florida Buying?

An Integrated Criminal History System that will:

- Provide offender images, palm prints and other identifying information not currently available
- Link criminal history record information with criminal offender imagery
- Link public and applicant criminal record checks to FDLE's financial management system
- Faster and more efficient records processing

### FY 2004-2005 Costs

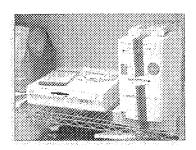

- \$58,000 Phase 1 program management plan, system design, and build proposal for the working model
- \$2,100,000 Phase 2 computer equipment and software to demonstrate basic functions of ICHS (prototype)
- \$3,200,000 Phase 3 computer equipment and software necessary to replace the current Computerized Criminal History System and the Automated Fingerprint Identification System
- \$2,100,000 Phase 4 processing of public criminal history requests, new record seal and expunge capability, new Firearms Purchase Program (FPP), new disposition record processing capabilities
- \$42,000 other costs

- Number / percent of criminals identified during criminal history record checks for sensitive employment, licensing, or gun purchase (Standard: 238,000 / 14%)
- Percent of responses to criminal history record check customers within defined time frames (Standard: 92%)
- Percent of felony criminal history records with complete disposition data (prior to 1998)
   (Standard: 81%)

### Continue Computer Crime Center (ending Byrne Grant) \$650,000 General Revenue

For the last four years, FDLE has used a \$650,000 Byrne grant to develop the expertise in-house to effectively assist Florida law enforcement in combating computer crimes. FDLE's Florida Computer Crime Center (FC3) and Computer Evidence Recovery (CER) Section investigate cyber-crimes, analyze evidence, conduct training, perform research and assist in the prevention and prosecution of computer crimes. Byrne funds used to cover the salaries and expenses of 8 career service

staff and 2 OPS staff will expire in FY 04-05. FDLE is requesting General Revenue to continue this program.

Since its inception, the FC3 and Computer Evidence Recovery Section have:

- Carried out 23 complex computer crime operational cases
- Worked almost 1,000 investigative assistance cases
- Trained 4,000+ law enforcement officers, Assistant State Attorneys and others on cyber crime investigations and prosecutions
- Worked in coordination with other state and local agencies to develop the Florida Infrastructure Protection Center, the Florida Cybersecurity Institute, and the North Florida Infragard Chapter
- Provided laboratory analyses on computer media (272 last year) in cases ranging from child pornography to sexual battery and homicide. Performed analyses with an average turnaround time of 28 days

### What Service is the State of Florida Buying?

- The continuation of the state's program to combat computer crimes in Florida
- The ability for law enforcement and state agencies to obtain expert analysis, training and assistance in resolving complex cases involving the use of computers
- Retention of experienced and trained investigative, analytical, and laboratory staff

### Cost

\$650,000 recurring General Revenue (fund shift from Trust Fund)

- Number of computer crime criminal investigations closed (Standard: 12)
- Number of computer evidence recovery service requests completed (Standard: 373)
- Average number of days to complete computer evidence service requests (Standard: 90)

### Factual Analysis Criminal Threat Solution (FACTS) \$1,600,000 (Trust Funds)

Florida law enforcement needs easy access to many types of data, much of which is housed in different formats and information systems. Combining the many different data sources into one system and utilizing data mining technology significantly improves law enforcement analysis capabilities, increases the volume of data that can be correlated, and saves valuable investigative time.

The Factual Analysis Criminal Threat Solution (FACTS), formerly known as FCIC+, is a windows-based application created to allow a user to rapidly and easily query multiple data sources within the same application. A single query to a large data warehouse can access records contained in FDLE criminal histories and Department of Highway Safety and Motor Vehicle and Department of Corrections files, as well as information contained in a multitude of public record and private data sources.

Using super computer power, FACTS allows authorized users to query data concerning subjects that match certain criteria. An investigator can rapidly go from billions of records to several hundred or less, with the system acting as a "pointer system" and allowing the investigator to review the closest matches and make a final subject determination. This system has been in use by FDLE for domestic security investigations, as well as general investigations, for the last year.

### What Service is the State of Florida Buying?

- Continued access to an integrated intelligence system that provides detailed information from public and private data sources
- An investigative and analytical tool that is valuable to the state's Regional Domestic Security Task Forces and FDLE investigations
- Continued capability to run reports and queries, create on-line photo line-ups, and
   "map" subject addresses and relationships

### Cost

\$1.6 million recurring Trust Funds (\$1.2 m Byrne and \$400,000 Operating Trust Fund) to continue use of the system. FDLE has secured a four-year federal Byrne grant for this system.

### MEASURABLE RESULTS

- Number of short-term investigative assists worked (Standard: 3,819)
- Number of criminal investigations closed (Standard: 1,353)

### Information Technology Replacement Plan \$1,020,113 General Revenue

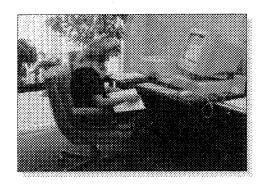

FDLE uses approximately 3,000 personal computers on a day-to-day basis to perform essential public safety functions. The Department also maintains approximately 200 servers in offices throughout the state to support mission-critical systems such as the Florida Crime Information Center. Information technology must be replaced or upgraded on a regular schedule to ensure high member productivity and uninterrupted service to customers.

Consistent with industry standards and the recommendation of the State Technology Review Workgroup, FDLE plans to replace personal computers on a four-year replacement cycle.

FDLE plans to enter into a Microsoft Enterprise Agreement for operating system software, the Office Suite and Client Access. Currently licensed on a per-program, individual-user basis, the move to an enterprise license contract will allow FDLE to provide a standardized and up-to-date computing environment to members.

### What Service is the State of Florida Buying?

- FDLE members who are better equipped to meet the technological needs of the criminal justice community and the public
- Continued quality service to FDLE customers

### Cost

**\$1,020,113 recurring General Revenue** is requested for the first year of technology replacement:

- \$175,449 for 775 personal computer hardware replacements (installment payments for 25% of personal computers)
- \$542,850 for personal computer software licensing (2,350 @ \$231)
- \$301,814 for server replacement and server software upgrade (39 new servers)

- The needed technology infrastructure replacement will equip FDLE members with updated hardware and enable them to perform daily duties quickly and efficiently.
- Upgraded technology will assist the department in achieving all department performance measure standards.

### Forensic and Investigative Equipment \$200,000 Trust Fund Match

FDLE provides forensic services to law enforcement agencies throughout the state through analysis of physical evidence collected from crime scenes. The information aids in the resolution of crimes and in determinations of prosecution, arrest, or trial actions.

In Fiscal Year 2003-2004, the crime labs received a \$600,000 Byrne Grant for four years that has been designated to pay for forensic supplies including: personal protective equipment, chemical reagents and standards, disposable glassware, fingerprint powder, dye stains, computer discs and CDs, and evidence packaging supplies. Such expendables are required in the examination of cases submitted to the laboratories. FDLE is requesting \$200,000 in recurring Operating Trust Fund to match the Byrne Grant allocation.

### What Service is the State of Florida Buying?

• Continuation of the necessary investigative and forensic science analysis

Ensure laboratory scientists have the basic equipment and supplies for processing lab requests

### Cost

\$200,000 Operating Trust Fund match for Byrne Grant funding

### Measurable Results

 Number of laboratory service requests completed (Standard: 73,112)

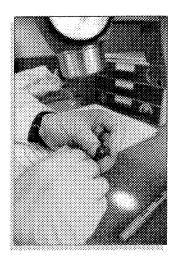

### Scanning Electron Microscopes \$725.000 Trust Fund

At FDLE's seven crime laboratories, forensic scientists collect physical evidence; preserve, analyze, and assess its investigative and prosecutorial value; and, utilize the evidence to support arrest or trial actions.

Scientists use scanning electron microscopes to analyze paints, glass, filaments, and gun shot residue. The existing microscopes, located in Orlando and Daytona Beach, are 9 to 12 years old and reaching their life-span capacity. The manufacturer will no longer support the instruments under a service contract, and replacement parts are increasingly difficult to obtain. Without this equipment, FDLE would not be able to effectively provide microanalysis. Few, if any, private sources exist for these types of examinations. FDLE is requesting trust fund authority to purchase 3 new scanning electron microscopes.

### What Service is the State of Florida Buying?

- Continued ability to provide microanalysis services to criminal justice customers
- Updated and improved equipment for processing cases (854 last year)

### Cost

Trust fund authority is requested to provide:

• 3 scanning electron microscopes at \$242,000 each (\$543,750 from Byrne and \$181,250 from Operating Trust Fund to match)

- Number of laboratory service requests completed (Standard: 73,112)
- Number of criminal investigations commenced (Standard: 790)
- Number of short-term investigative assists worked (Standard: 3,571)
- Number of criminal investigations closed (Standard: 1,240)
